

# AA in History

The History Curriculum at NCCC provides the prerequisites for most bachelor degree programs in History. Students interested in Secondary Education Certification in History should follow this degree program, with the addition of Introduction to Teaching. This is also a useful degree program for students interested in the Law and Museum studies.

## PREREQUISITES

You will need to demonstrate proficiencies in reading, English, and mathematics based on the COMPASS assessment test, ACT or SAT scores, or by taking the recommended/required classes. Some of the courses in this curriculum have specific prerequisites. Prerequisites can be found on the reverse side (Guide to Completing Program Requirements) or in the college catalog.

## GENERAL EDUCATION (GE) COURSES

In order to graduate with a college degree, all students are required to take certain general education courses. These include English composition, speech, wellness, science, art & humanities, mathematics, computer systems, and social & behavioral sciences.

## PROGRAM CORE COURSES

HIST 202 US History II (Since 1850) or HIST 200 Recent American History, HIST 101 World Civilization I (to 1600), HIST 102 World Civilization II (since 1600), SOSC 100 Introduction to Sociology, SOSC 102 American Government II (State & Local).

## PROGRAM ELECTIVES

HIST 240: History of Science, SOSC 200: Intro to Anthropology, ECON 200: Economics (Micro), and ECON 201: Economics (Macro) are some of the elective courses for this program.

## COURSE SEQUENCE

The listing that follows is a suggested sequence of courses for full-time students majoring in Psychology. If you are a part-time student, or have transferred courses from another school, you should generally complete the courses listed under Semester I before moving on to Semester II. Please be sure to consult the course descriptions. It is very important to select the four-year college or university to which you intend to transfer as soon as possible, preferably before completion of thirty hours of course work. Knowing the degree requirements of the transfer institution could make a difference in which courses you select. Many courses are offered day and evening on both campuses.
