

**NEOSHO COUNTY COMMUNITY COLLEGE
MARY GRIMES SCHOOL OF NURSING**

Nursing Organizations/Representation

Student Faculty Representative

One student faculty representative, and at least one alternate, shall be elected from each level of nursing on each campus and hybrid. The functions of the student faculty representative shall be to:

- Serve as a representative at the nursing faculty committee meetings, and relate information from the faculty meeting back to the class.
- Maintain channels of communication between class members and faculty, by bringing student concerns to faculty meetings.

Student Nursing Association (MGSNA)

Nursing students are encouraged to become active members of MGSNA. Membership in MGSNA gives the student an opportunity to learn and practice leadership skills at a local level. MGSNA is open to students currently enrolled in the nursing program. Activities are related to school, social, and community projects.

Kansas Association of Nursing Students (KANS)

Nursing students are members of the KANS organization. This organization offers the students an opportunity to develop leadership skills and become active in legislative concerns that face the nursing profession. Organizational activities may include school, social, and community projects. Health insurance coverage is available to members at a reasonable rate.

Membership in KANS gives the student an opportunity to learn and practice leadership skills and network with students from other schools of nursing and nurses at state and national levels. It also prepares the student to be active in a professional organization after graduation. KANS is open to all pre-nursing students in addition to those enrolled in the nursing program. Activities are related to school, social, and community projects.
