

Mary Grimes School of Nursing implements NCCC's vision, mission, and purposes by:

- providing access to quality nursing education for a culturally diverse population in a rapidly changing profession.
- providing a foundation for career and educational advancement by integrating evidence-based practice, technology, and quality improvement to achieve best practice standards that will enable graduates to succeed in the profession of nursing.
- promoting faculty expertise necessary to facilitate student learning through achievement of quality and safety competencies and fostering personal and professional values of excellence, integrity, accountability and responsibility.
- improving the healthcare of our communities by enhancing the quality of the nursing workforce.
