

Phlebotomy

Certificate

The Phlebotomy certificate program prepares students to be proficient in their profession and to demonstrate successful competence in the outcomes as established by the Commission on Accreditation of Allied Health Education Programs in their Standards and Guidelines for Medical Assisting Educational Programs that mandate phlebotomy training.

Upon successful completion of this program the student will have the skills to pass the RPT (Registered Phlebotomy Technician) examination administered by American Medical Technologists (AMT) and to obtain an entry-level position in the laboratory technician profession.

General Education (GE) Courses

The phlebotomy program is designed as a terminal certificate program. Certificate students are not required to take specific elective courses for this program. If students choose to pursue continued education, the certificate will assist with skills needed in the medical assisting and nursing occupations. Students should work closely with their advisors to determine the most efficient method of obtaining career goals.
